

A better way to manage your performance

With shrinking reimbursement and higher expectations of quality, today's challenging hospice environment demands cost-effective, simple and, powerful management tools. SHP understands how to turn your data into a powerful part of your business strategy and we truly believe that we are the best choice for CAHPS® Hospice. Here is why:

- 
SHP experience and expertise. We have been working with hospices of all sizes for over two decades. We began converting hospices from FEHC to CAHPS Hospice far ahead of the dry run period. Our experience as the largest HHCAHPS vendor has helped us achieve a CAHPS Hospice survey response rate amongst the highest in the industry and we have set the gold standard for benchmarking and performance improvement.
- 
We have the largest hospice benchmark in the industry. You can see how you measure up to the state and national standards, and demonstrate to your referral sources that you are the best hospice in your community.
- 
Better technology. SHP has fully-automated CAHPS interfaces with every major software vendor, which eliminates the need for file preparation or manual uploads. You can see instantaneous results, and view the caregivers' comments in their own handwriting.
- 
We help you improve your performance. Our interactive reports let you monitor your entire organization in real-time. We then help you drill down to the details and quickly identify areas for improvement, making your data actionable. SHP for Hospice customers can also see their HIS measures, symptom control, and other key performance indicators in the same real-time dashboard as your CAHPS Hospice results, giving you all of your data in one place.

SHP is providing CAHPS® Hospice services to more than **2,000** hospices
