

## SHP for SKILLED NURSING

## Actionable Analytics into Real-Time Results

Improve clinical, financial and operational outcomes with SHP. Reveal trouble spots and help you improve revenue, five star ratings, PDPM performance, survey readiness and more.

### MDS Scrubber

- ✓ Seamless EMR Integration & Workflow
- ✓ Verify Anytime Before Locking or Batching
- ✓ Optimize Reimbursement for ALL Payors
- ✓ Intelligent DC Function Scoring at MDS Start
- ✓ Automated Proactive Quality Risk Alerts

### Five Star Rating Elevation

- ✓ Navigate Five Star Volatility with Clarity
- ✓ AI-Powered "What-If" Five Star Scenarios
- ✓ Past. Present. Future. All on One Dashboard
- ✓ Real-Time QMs with Forecast Visibility
- ✓ Drill Down to Details and Improve Quality

### Survey Preparation

- ✓ Predict High-Risk Tags and Potential Deficiencies
- ✓ Pre-Populated Survey Prep Tools
- ✓ Sample Pool Predictive Intelligence
- ✓ Automated Facility Assessment Data Collection

### PBJ Manager

- ✓ Audit PBJ Data to Avoid Penalties
- ✓ Track Staff Hours to Ensure Compliance
- ✓ Submit directly to iQIES
- ✓ Project 5-Star Staffing

### All-in-one Suite

- ✓ MDS Validation Reporting Tools
- ✓ Actionable Data Analytics Suite
- ✓ Improve MDS Accuracy
- ✓ Intuitive Dashboards and Resources
- ✓ Regulatory and Compliance Library

"[SHP's] tools enhance compliance, reduce audit risk, and provide invaluable insight into Five-Star forecasting. Plus, their customer support is exceptional."

– VP of Clinical Reimbursement, Ignite

## Additional Add-on Modules

### Quality Management Suite (QMS)

A robust tool to manage your mock survey process. QMS also allows you to enhance quality and compliance, reduce risk, benefit from system-wide transparency and save staff time, while integrating all your performance-improvement activities.

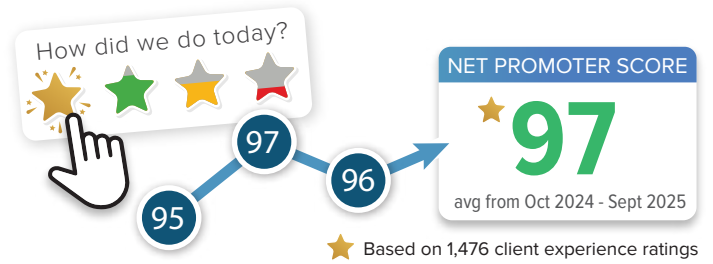

### CoreQ Satisfaction Surveys

Comprehensive and actionable questions to help you closely monitor and improve performance. PointClickCare Marketplace Integration automatically generates sample of residents and family members to survey.

### AI

For over 15 years, SHP has lived inside post-acute care, continuously ingesting real-time MDS, census, and outcomes data. This unmatched insight has powered our predictive intelligence for years before AI became industry shorthand.

The result is clarity and confidence for clinical and operational teams. When risk is identified early and outcomes are predictable, teams shift from reacting to focusing on what matters most—resident care.

Your dedicated SHP Account Manager is your personal guide to getting the most out of SHP — available one-on-one to answer questions, resolve issues quickly, and keep you on the path to success.
